

# Online National Symposium on Recent Trends in Chemical Sciences

Department of Chemistry, Indian Institute of Technology Tirupati  
Yerpedu – Venkatagiri Road, Tirupati, Andhra Pradesh - 517619

Via ZOOM on 3<sup>rd</sup> and 4<sup>th</sup> October, 2020. [Click the icon to join](#)

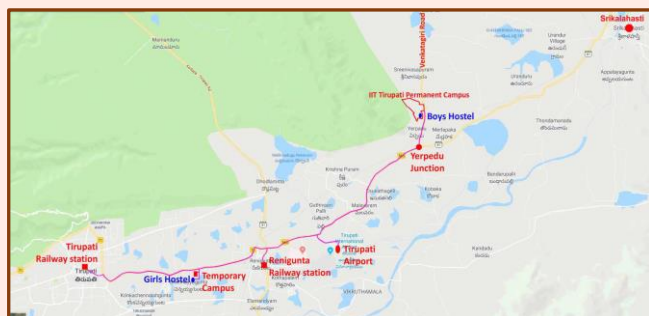

The subject of Chemistry is rapidly expanding owing to its boundless penetration into diverse branches of science and engineering and thereby producing its fruits for the betterment of life. Thus chemistry plays pivotal role in a variety of areas pertinent to agriculture, food, water, biology, environment, medicine, materials and devices, to name a few. Keeping abreast with such fast changing scenario is extremely challenging to the budding researchers and hence demands for ways and means of communicating the subject effectively. While this is going on in the form of continuing education to the teachers, the researchers are most benefitted through workshops, conferences and symposia. Keeping this in mind we have proposed one day symposium to discuss some cutting edge topics across the broad range of chemical sciences. Therefore, this symposium will have several invited lectures from eminent speakers coming from various institutes across the country and a poster session that will bring an opportunity to the young researchers to interact directly with the eminent scientists. The platform will further catalyse collaborations among researchers working in diverse areas chemistry, an outcome that is most sought.
